PRESIDENT'S MESSAGE

John Ostendorf, R-518

Dear fellow sales tax token collectors,

I hope this letter finds you well. Enclosed with your Newsletter is a special 50th anniversary Missouri counterstamp as a token of appreciation to our members. Not many numismatic organizations can boast that they have made it 50 years. We are a small fraternity, but a dedicated one. Thank you for being a member!

With this Newsletter, we kick off renewal season. The executive board voted to change our dues structure to help offset the increased costs we have faced in recent years, primarily postage costs. Beginning in 2021, our dues will go from $15 to $17. We are also introducing an electronic-only membership at half the normal dues rate, or $8.50 per year. Members opting for the electronic-only membership need only to let me know their email address and I will send a pdf version of the Newsletter at the same time I mail the hard copies. Several members, myself included, have been taking only a pdf version of the Newsletter for several years. I find it handy in that I can store the Newsletter on my computer, search easier, and can always print it off if I want to. Please consider it.

I hope everyone has a wonderful holiday season!

John

2021 MEMBERSHIP DUES ARE NOW DUE!

You can pay via Paypal by sending **$17** for regular subscription (mailed newsletter) or **$8.50** for electronic subscription (e-mail newsletter only) to **jnlcalvert@gmail.com** or mail dues to **Jim Calvert, 769 Bracken Ln, Nipomo, CA 93444**

We very much appreciate your continued support and ask you to renew promptly so Jim does not have to send out reminder notices. Thanks for being a member of the ATTS!

LETTERS TO THE EDITOR

Send your own questions, comments, corrections, or information to:

BILL at: Wjmhands@gmail.com

This issue's LTTE contributors include: Joseph McCarthy shares his latest finds and the story of how he got started collecting sales tax tokens. Sadly, we also report the passing of Harold Don Allen.

I want to wish everyone Happy Holidays. Celebrations will be different due to the pandemic, but I hope they are a good change for everyone. It you get any sales tax tokens as presents, send me a note about it. Dues for 2020 are due so it would be a great present for the ATTS if you could pay your dues now. The dues are the major source of funds and the newsletter is the biggest expense so support the ATTS and pay your dues now.

The response to my request for reports on how you got started collecting sales tax tokens has been dismal. None of our members were born with a sales tax token in their hand so each of got our first sales tax token and then made the decision to become a collector. Please jot a few lines down and send it to me. If you do not have the ability to send a report via a computer, you can send me a letter (typed or handwritten) via the post office. My address is at the bottom of the newsletter.

The response to my request for reports on how you got started collecting sales tax tokens has been dismal. None of our members were born with a sales tax token in their hand so each of us got our first sales tax token and then made the decision to become a collector. Please jot a few lines down and send it to me. If you do not have the ability to send a report via a computer, you can send me a letter (typed or handwritten) via the post office. My address is at the bottom of the newsletter.

I had better put my money where my mouth his and tell the membership how I got started collecting sales tax tokens. My interest in numismatics started when I was young and inherited a small collection of US coins. My father was in the Army and we lived in Germany at the end of the 1960s and I obtained coins and notes from the European countries. People would give me coins as they knew I had an interest in them. I will say that it was more of an accumulation then a collection. My interest in coin collecting faded as I got older and was busy getting an education, starting a career and family, all of which took precedence. Also, funds for coin collecting were tight during this period.

I was settled in my career and in in the mid-1990s I met gentleman who belonged to the local coins club and I began to attend meetings. After that I tried to make up for the previous

time I had lost in numismatics. I now had the means to buy more and better numismatic collectibles and I began to attend coin shows. At one coin show I found these small metal discs that looked like coins. That is how I found my first sales tax token. At the time I did not know they existed. My parents were from Maryland and Pennsylvania, so they did not have any sales tax tokens to give me. Now I wanted to find the how, what, and why the tokens existed. I found out there was a society people who collected sales tax tokens and a reference book for them. I joined the American Tax Token Society and bought a copy of *United States Sales Tax Tokens: A History and Catalog*. Now I had a guide to continue collecting sales tax tokens. I started to collect tokens from as many states as I could find. I also have an interest in World War II numismatics and discovered the war created changes in composition of the tokens, so I began to pursue collecting these tokens. I have exhibited at coin shows on the sales tax tokens from World War II.

I developed enough knowledge that I felt comfortable writing about sales tax tokens for the newsletter. Monte Dean asked me to take over the newsletter, which I did. There are many members who know more about sales tax tokens then I do and I, and the membership, would like to hear from you about how you got started. We can all learn from the members. Remember 2021 is the 50th anniversary of the American Tax Token Society. This is the year we need to hear from our membership.

I paid my dues for 2021, please take the time to pay the dues now.

2021 is the 50th anniversary of the ATTS and for part of the event I would like to publish articles about how you became interested in Sales Tax Tokens, interesting stories you have related to tax tokens or anything you think would be interesting. I have 4 submissions so far (2 in this newsletter), but I need more. Most of us are home more than usual so please take the times to jot something down and send it to me by E-mail or snail mail.

PLEASE NOTE: If you are emailing me I would greatly appreciate it if you would supply **your full name** and membership number. I have received an email from "Jack" and I don't recognize the name off-hand or the email address either. So in order for me to list it here I have to go through my entire email address book looking for "Jack". Likewise, if you don't include your return address on a snail mail, please give me your full name on the written enclosure. Thanks for saving me a little time. I do appreciate EVERY contact but this identification would also be appreciated. **My sincere thanks, as always.**

JOSEPH MCCARTHY (L-616) WRITES: I recently acquired a It is an Ohio S.P.C. 3B SSK.

Just received another item I won on E-bay. It started at $39.99, plus $2.00 shipping. I won the lot for $39.99 plus$2.00 shipping.
Lot consisted of:
1. An OH SPC2 - FWW punch card
2. 26 Full, Vendor and Consumer, tax stamps
3. Over 90 partial tax stamps, some Vendor half and some Consumer half

I was looking through items on E-bay Saturday afternoon when I came across two listings by the same seller for Ohio Punch Cards as follows:
1. An Ohio SPC2 - SSK, Buy it now price of $17.50, plus $3.00 Shipping.
2. An Ohio SPC5 - SSK, Buy it now price of $15.00, plus $3.50 Shipping.

I purchased both.

TAKE THE TIME TO PAY YOUR DUES NOW, THE SOCIETY NEEDS YOUR SUPPORT

How I Got Started In This Obsession
By Joe McCarthy (L-616)

It all started when; wait a minute I forgot the prequel.

I was enjoying myself with my latest Sales Tax Token acquisition when I received the first of **MANY** e-mails from Monte Dean asking me (here read ASKING) to tell about my time actually stapling Ohio Sales Tax "Stamps" to invoices. Well Monte, it took me awhile but here it is (now stop bugging me). Actually, it is because of Monte that I became a member and continue to this day collecting what I can of Sales Tax Tokens.

Now back to your (okay my) regular program.

It all started while I was attending a small coin & token show near Portland, OR. The dealer who operated the show I had gotten to know from the local Willamette Coin Club. As I started around the bourse floor, I noticed a table in the middle, away from any dealer's table, with items of interest. I inquired of the promoter and he said that all the items were for sale at 25 cents each. I quickly went back and started looking through the items. One series of items stood out, Washington State "paper" Sales Tax tokens. Along with a number of other items of interest, I quickly picked up about twenty-five of these Washington Tax Tokens item. Thus began a return to my teenage years and my first summer and after school job in Ohio.

In the summers and after school in Columbus, Ohio I helped to prepare invoices for a firm. The job called for me to sit down in front of a pre-computer. A luggable computer, better known back at that time as a typewriter. The keyboard was basically the same as on today's computers. The screen however was a piece of paper; in this case a five part (page) with carbon paper (paper coated with carbon on the reverse so that what you typed print through on the sheet(s) below). The difference with that method and today's is that a typo meant having to carefully erase the "mistake. on all copies. Anyway, once the invoice was complete, we would tear the invoice into the five parts. Then reach for the box of Sales Tax Stamps, tear off the Consumer Portion and affix (staple) it (them) to the customer's (consumer's) invoice copy and match it back with the driver's copy. The Vendor's Tax copy would then have the Vendor's portion of the Sales Tax Stamps affixed by stapling and filed in the tax file.

Well once I had the Washington Tax (paper) tokens I did some research, joined the ATTS and ordered a copy of Malehorn and Davenport. My main Sales Tax Token interest today is naturally Ohio. However, I have a small collection of Michigan, Illinois, and California items.

And that is how I became addicted to another area of Numismatics -Exonumia.

This is the kind of report that is needed for the newsletters for 2021, the 50th anniversary of the ATTS. Please to take the time to jot something down about how you got involved in collecting sales tax tokens and send it to me. Thanks, Bill

HAROLD DON ALLEN – RIP
(July 2, 1931 – July 11, 2020)

Dr. Harold Don Allen, who brought story-teller's passion to curation of numismatic history from bank notes to milk tokens, passed away at age 89. Harold was a long-time member of the ATTS. He was a well-known member of the numismatic community, particularly in Canada. He had a fascination with world paper money and began writing articles in the 1950s. He even had a show on TV that was recognized by the ANA in the 1970 National *Coin Week* competition.

Harold was an active member of numismatic societies in Canada, the United States and abroad for more than 70 years. He was well ahead of his time in talking about new collecting areas such as Canadian milk tokens, rationing and other "Cinderella" means of exchange, including his widely cited December 2006 article in *The Numismatist,* about the origins of

Canadian Tire money. A prolific writer of hundreds of articles, his work was also published in *Coin World*, the *Canadian Numismatic Journal*, the *International Bank Note Society Journal* and the *Fare Box*.

He was a lifetime or honorary member of the ANA, Royal Canadian Numismatic Association, Canadian Paper Money Society, International Bank Note Society, and Society of Paper Money Collectors; a fellow of the U.K.-based Royal Numismatic Society; a past president of the Montreal Coin Club; and a member of many other clubs worldwide.

His achievements included the Numismatic Literary Award from the Canadian Numismatic Association (1977) and the Royal Canada Mint's Numismatic Education Award (1979). He also served as chairman for the Royal Canada Mint's selection committee for the 1983–1984 silver and gold $100 coins.

In 2001, Allen wrote the authorized biography of a renowned Canadian numismatist Jim Charlton. Entitled *J.E. Charlton: Coinman to Canadians*, the book was prepared from personal correspondence and conversations between the author and "Mr. Coin."

Numerous tributes to Harold can be found on the internet. He will be missed.

Celebrating Washington's Centennial
Washington's Sales Tax Token
(1935-1951)
If you were born after 1950, you may never have seen (or heard) of a tax token like the one attached to this card. Tax tokens took several shapes between 1935 and 1951 when they were used in Washington State. The most popular was the aluminum token with a center hole. About 185 million of them were distributed.
Washington pioneered the issuance of tax tokens and survived a U.S. Treasury challenge of them as coinage. Originally tokens were worth 1/5 cent and later 1/3 cent. The first ones were printed on 1x2-inch lithographed paper for use until the metal coins were minted. During World War II metal tokens were replaced by dark green fiber and shiny green plastic ones. After the War, aluminum tokens were used once more.
Washington's residents found other creative uses for the tokens such as poker chips, washers, fishing tackle and as decorations on hat bands and students' shoe laces. Tokens also made excellent bulls-eyes in target practice.
Replaced by pennies in 1951, tax tokens are now a collector's item—especially the early editions and paper script.
Washington State Department of Revenue, Olympia, WA. Issued 1950.
